With modern Swedish and international best practice, knowledge and experience we support Health Care Organisations in Sri Lanka to reach their goals.

Diploma in Advanced Project Management (University Stockholm)

Diploma in Leadership and Management..

Personally, she is a typical entrepreneur, and aim to live by the motto;

“see and work for solution instead of focus on the problem”.

Christina Riddebäck has enhanced skills when it comes to planing, structure, launch and organize new organizations. She believes that her main strength is to be a positive person able to maintain an optimistic spirit in challenging situations, and consistently strive for the goal achievement and build strong teams.

Christina has been the Managing Director for many different functions consisting of leading various groups like Doctors, Nurses, Physiotherapists, Therapists, Financial Directors and with the overall purpose of coordinating and creating collaboration between the various professions' expertise.

With modern Swedish and international best practice, knowledge and experience we support Health Care Organisations in Sri Lanka to reach their goals.

This has generated increased experience within the medical field in a more structural sense and formed a deeper understanding of organizational measures and management skills.

Christina Riddebäck has had main responsibility for organizing and initiating the following entrepreneurship:

*Advanced Home Care Team based on the philosophy of Palliative Care

*Hospice for young and middle-aged patients suffering from a terminal illness (e.g. Cancer)

*Special Clinic for elderly people with various diagnoses
